Presentation Overviews

Update on the Bradford Physical Healthcare Model

Speaking about Improving The Physical Health for People with Serious Mental Illness (SMI). Demonstrating how practical systematic approaches within a model support and improve care delivery for these patients across Primary and Secondary Care.

Building better data to measure the progress we are making

An introduction to the MHSDS and a brief analysis of the latest data. Identifying the number of patients with depressions – datasets and definitions.

About Wilmington Healthcare

Wilmington Healthcare brings together the well-established healthcare insight and networking capabilities of Binley's, NHIS, Wellards and HSJ to create an unrivalled healthcare data, education and information resource with outstanding analytics capability to help you better understand and deal with your challenges.

About HSJ Regional Networks

Recently rebranded to fall under the established and respected HSJ events portfolio, the Networks series are free to attend meetings for NHS and associated healthcare professionals. Aligned to the development of integrated care systems, they provide a unique networking and learning environment across the health economy. Involving a broad reach of stakeholders, the meetings enable delegates to hear from specialist speakers and to address local challenges and priorities, which will help support better working arrangements and service change.
